BRILLIANT PAGEANT AT ARENA TO-MORROW

Some idea of the magnitude of the Boston 1910 committee pageant which will be given at the Boston Arena to-morrow night was gained from the big rehearsal held at the arena last night. According to the dress rehearsal "From Cape Life to City Life" will be one of the most stupendous and magnificent efforts ever attempted in Boston.

The Boston Arena looks like the carnival of all times rather than the carnival of nations with the hundreds of performers moving about dressed as Colombians, sea dwellers, Indians and present day citizens. The rehearsal is an especially interesting feature in that it presents the preliminary rehearsal in considered of far greater importance than the actual pageant itself. Through them community life has been shown, musical groups have been rehearsed, and a splendid spirit of co-operation has resulted.

The band of thirty full-blooded Indians who gave the Indian episode of the pageant created quite a stir and were equally interesting to children and adults alike in the dramatic spectacle.

Beautiful Confusing.
The pageant of last evening was so unusually beautiful, confusing and fantastic, that it is at the close of the pageant that the most novel scenes are given, especially that depicting the future city. Then comes the depicting of the past, as typified by pupils of the Curry School of Expression and the destructive force of the fire. This drama member, slavery and serfdom are given by the Central Labor Union members as is also the strike between capital and labor, who were portrayed by the Sons of Veterans and the Boston Police.

Contrasts between the past and present are depicted by the pupils of the Central Labor Union, who are carrying the banner of the future city. DAVE BUICK, INVENTOR AND FOUNDER OF THE BUICK AUTOMOBILE

This has been the greatest week in our opinion any oil company has ever had in the sale of oil shares. There is a reason for this, and the people have found the reason.

Our property is located in the very heart of the richest district in oil production in all the world—Kern County, California. Here it is that the great gushers of the world are to be found. But 1½ miles from one of the Buick properties flows the monster gusher Lakeview that has broken all world's records for the amount of oil produced to date. It has flowed more than five million barrels in the past seven months. The Standard Oil Company owns big producers here. They are trying to get all of the land they can in and around the fields where the Buick Oil Company lands are located.

We are now drilling two wells on two of the three properties. These telegrams tell the news of these wells:

Los Angeles, Cal., Oct. 25, 1910.
Buick Oil Co., New York City.

Buick Company's Midway well down fifteen hundred eighty feet. Three million dollar company being formed to take over holdings in same quarter section that Buick Oil Company's Sunset Forty Acres are located on. Brokers anxious for Buick Company to put price on its Forty.

Buick Oil Co., New York City.

Associated Oil Company, which is Southern Pacific R. R., is getting ready to put down oil wells on its valuable holdings adjoining Buick Oil Company's Midway property on the north. Also wants to be amply arranged to keep three hundred feet apart from each other's respective lines. Our property regarded as the choicest in this famous gusher section.

Buick Oil Co., New York City.

Buick Midway well sixteen hundred twenty feet. Everything going along nicely. Midway stocks on Los Angeles and San Francisco exchanges are very strong at advanced quotations. Everything points to boom market this Winter, and Midway properties are rapidly being absorbed by strong companies.

"Get in now when you can get in!"

—SAYS DAVE BUICK

BUICK OIL SHARES HAVE SOLD LIKE WILDFIRE ALL THIS WEEK

MR. D. D. BUICK HIMSELF CAN BE INTERVIEWED ANY DAY AT THE NEW YORK OFFICE OF THE COMPANY

Form Your Own Opinion; Then Act Quick To-Day

Read the telegram just given again. Do you know what these facts mean? They mean that the Buick property is the heart of a district that is so well developed that a refinery must be erected within a short distance of our property.

The foregoing telegram also says that California Midway No. 2 well is expecting a gusher within the next two hundred feet. Don't you see that this gusher proves up our holdings, and when this gusher arrives that Buick oil cannot possibly be sold at such a figure as it is now? These telegrams hold certain reasons for the fact that you can make an intelligent conclusion with respect to Buick oil.

But this last telegram not nearly so good as the two which follow:

Los Angeles, Cal., Oct. 31, 1910.
Buick Oil Co., New York City.

Midway well down seventeen hundred eighty feet. Alaskan Frontier Midway Company, in same section as Buick Midway, has gotten into oil sands at depth of twenty-six hundred feet and are now making big preparations for handling oil. Conditions here most favorable. Everybody enthusiastic over Buick property.

Buick Oil Co., Los Angeles, Cal., Nov. 2d, 1910.

Maricopa Thirty-six south of Lakeview gusher, has just made sensational strike and fabulous price has been offered for property. Buick Maricopa Sunset Forty, which is mile and one-half south Lakeview gusher, is brought closer to that record-breaking gusher by the new strike. Recent attempt to buy Buick Sunset Forty was in anticipation of striking it big in Maricopa Thirty-six.

Buick Oil Co., New York City.

The above telegrams tell a short, terse tale of successful development. You must understand that this company is not asking you to come into a prospect. Mr. Buick and his associates have put their own money into Buick Oil. They carefully selected the properties, which are three in number, and consist of 640 of the best located acres in the entire Midway, Sunset and Maricopa-Sunset fields.

All about and around these properties there are today, this very minute, producing oil wells that are turning thousands of dollars into the coffers of their companies. These wells are owned by the closest and most careful corporations in the land.

There are pipe lines around the Buick properties. Not miles away, but close by, so that when our wells come in the output of the wells may be rushed to market without loss of time.

Every question in connection with the Buick Oil Company can be answered to your entire satisfaction. There is nothing to be hid. There is nothing that cannot be made clear and understandable to you. The past few days have been the most strenuous any company ever experienced. The first broadcast announcement of the sale of Buick shares was made in this city last Sunday. This announcement appeared in the country's greatest newspapers and was read by millions. The result of this was that on Monday and Tuesday just past our New York office was filled with buyers and investors, while our mail orders were simply immense.

We did not expect such a great volume of business and were somewhat unprepared to answer such a volume of mail. We are now equipped, however, and can take care of all the business as it comes to us within 24 hours of its receipt.

Perhaps you are not fully informed of the value of Buick shares. It is this so you should write now and get full information.

Just use the coupon below for this purpose and you will be sent the greatest piece of literature you have ever read.

We will send you our book entitled, "The Land Where Oil Is King." It is filled from cover to cover with the greatest proof of a stock value ever compiled in the nature of printed matter. We go into the value of our properties from every angle. We tell you how and when oil was discovered in California. We show you the number of wells that have been drilled, and we show you year by year the number of successful and unsuccessful wells. We show you that in California's oil fields during the year 1909 out of every 100 wells drilled 90 per cent were successful in striking oil. Don't you think it a good buy to invest in oil stock in a State that has such a record as this?

We want to prove to you by this great book that the district in which Buick Oil is located is by far the most productive district in the entire State of California.

We want to show you how California protects her stockholders under California charters, which are the best in this country. We want you to read the reports of expert geologists on all California oil fields, and Kern County fields in particular. We want you to see the actual photographs of the great Midway field and its world-famous gushers. We want you to read what Mr. Buick has to say and how and what he thinks of this property.

Every phase from the organization of this company down to the installation of the 15-inch pipe, the largest in use on the coast, and the erection of a 100-foot derrick, the greatest ever built on the coast, is covered in this great book which will come to you free for the coupon below. No letter is necessary.

Don't delay a single minute. Send in your subscription. Now is the time to buy.

If our stock keeps on selling as it has this past week we doubt it will have many shares to offer in a few days. If our well comes in or one of the many which are now drilling alongside of us, our present price of fifty cents per share would be entirely too low for the value given.

We reserve the right to return any application without notice at any time within twenty-four hours of its receipt by us in this office.

The Splendid Victory of Governor-Elect Foss Is a Great Deal More Than a Personal or Party Triumph

It means a reform in the management of the State institutions.

It is to be regretted that he is not to have Thomas F. Cassidy as his assistant in the office of Lieutenant-Governor. Mr. Cassidy did much to elect Mr. Foss. He has rendered a great public service in helping to achieve the glorious victory for progressive government and reform and has demonstrated his right to be one of the great men of the State.

On the whole, yesterday's election was a great thing for the common people.
